Section I – Introduction

This document details the Sponsorship Program for the (ISC)² US Military Germany Chapter.

The (ISC)² US Military Germany Chapter provides its members, as well as other security professionals, the opportunity to network, share knowledge, exchange resources, engage in public service activities, and mentor aspiring information security professionals. Our mission is to inform the public and advance information security for the US Military in Germany area.

Our members represent a broad cross section of government, military, and industry security professionals. The increased focus on security within both Industry and the Department of Defense is driving the need for more personnel to seek out formal security credentials such as the Certified Information Systems Security Professional (CISSP). The US Military Germany Chapter provides a forum for collaboration within the community, as well as a pathway to resources, advice and expertise for those seeking to hone existing skills or obtain advanced certifications through (ISC)².

Becoming a sponsor of the (ISC)² US Military Germany Chapter not only shows that your organization supports the advancement of the information system security profession but provides the opportunity to present to, and strategically network with, the leading cyber and security professionals in the European theater, (including our non-military civilian members).

As our chapter continues its outreach programs in our community, we display our chapter banners at these events. As our corporate partners are also featured on the banner, it highlights your support and enablement of these events.

Sponsorship of (ISC)² US Military Germany Chapter entitles your organization to the benefits outlined on the following page. The memberships offered are full memberships with all privileges, and offers participation at all Chapter meetings and events. In the event that you do not have any local members that can attend our events, these members will receive all event notifications, so that you remain informed on our chapter activities that you are sustaining.

The sponsorship period runs for one year from the time of sign-up.

For more information or to become an (ISC)² US Military Germany Chapter sponsor, contact any Chapter Board member or contact us using the information provided below:

-

Section III – Sponsor Requirements

Sponsors of (ISC)² US Military Germany Chapter must agree to and comply with the following conditions. All sponsorships are subject to the (ISC)² US Military Germany Chapter Board of Directors approval. This program only applies to the (ISC)² US Military Germany Chapter, and provides no benefits at (ISC)² or to direct benefits at other (ISC)2 regional chapters.

- All sponsorships must comply with the (ISC)² US Military Germany Chapter mission.

- (ISC)² US Military Germany Chapter actively enforces a "non-aggressive" marketing policy. Our membership attends chapter events primarily because we have established an environment conducive to education, information, and professional networking. Our membership strongly resists aggressive marketing tactics and obvious "sales-pitches." We believe that a neutral approach provides better results and ultimately benefits the sponsor and the chapter membership at large.

- While we fully understand that you would like to distinguish yourself in the marketplace and attract new business, we kindly ask you to keep presentations focused on education and information. You can certainly present the distinguishing features of your product and how it solves security issues.

- "Negative campaigning" against competitors is neither welcome nor permitted. The aim of the (ISC)2 US Military Germany Chapter affiliation is to foster a professional forum among

Chapter members and interested parties with the intention of enhancing member education, recruitment and retention.

- Sponsor affiliation should focus on improving the professional knowledge of information security practitioners.

Section IV – Policy Review

This policy will be reviewed and revised accordingly on an annual basis by the (ISC)2 US Military Germany Chapter Board of Directors. This policy will be available for review on the Chapter website. All corporate sponsors will be responsible for reviewing this policy on an annual basis.

(ISC)² US Military Germany Chapter reserves the right to review and change the Sponsorship Program upon the recommendation and approval of the (ISC)2 US Military Germany Chapter Board of Directors.

Section V (ISC)² Code of Ethics

Members of the (ISC)2 US Military Germany Chapter adhere to the following (ISC)² Code of Ethics:

All information systems security professionals who are certified by (ISC)² recognize that such certification is a privilege that must be both earned and maintained. In support of this principle, all (ISC)² members are required to commit to fully support this Code of Ethics (the "Code"). (ISC)² members who intentionally or knowingly violate any provision of the Code will be subject to action by a peer review panel, which may result in the revocation of certification. (ISC)² members are obligated to follow the ethics complaint procedure upon observing any action by an (ISC)² member that breach the Code. Failure to do so may be considered a breach of the Code pursuant to Canon IV.

There are only four mandatory canons in the Code. By necessity, such high-level guidance is not intended to be a substitute for the ethical judgment of the professional.

Code of Ethics Preamble:

The safety and welfare of society and the common good, duty to our principals, and to each other, requires that we adhere, and be seen to adhere, to the highest ethical standards of behavior.

Therefore, strict adherence to this Code is a condition of certification.

Code of Ethics Canons:

- Protect society, the common good, necessary public trust and confidence, and the infrastructure.
- Act honorably, honestly, justly, responsibly, and legally.
- Provide diligent and competent service to principals.
- Advance and protect the profession.
